Department of Mechanical Engineering – PUC-Rio

Professor Position

The Department of Mechanical Engineering at PUC-Rio is seeking applications for a permanent professor position from exceptional professionals. The candidate should have obtained a doctorate in mechanical engineering or associated areas. Applications will be considered from recent graduates and candidates with teaching and research experience.

Exceptionally, doctorate students applications can be considered, provided the defences occur prior to June 1, 2026. Fluency in Portuguese is not mandatory during the selection process. However, since the undergraduate courses are taught in Portuguese, the candidate is expected to achieve proficiency within two years.

The selected applicant should demonstrate the capacity to:

- conduct fundamental or applied research;
- published regularly in high quality international journals;
- interact with other faculty members and develop national and international cooperation activities;
- create and lead research groups;
- obtain funding and grants from government and industry;
- teach undergraduate and graduate courses;
- supervise undergraduate and graduate students.

The documents required for the application are:

- Curriculum Vitae (PDF format) or link to the Lattes CV, <http://lattes.cnpq.br>;
- work plan, in english, describing the teaching and research activities to be developed, spanning 5 years (maximum length 3 pages)
- two or three professional reference letters.

The documentation should be sent by e-mail to: direcao-dem@puc-rio.br. This address may also be used for obtaining further information or additional inquires.

The deadline for the reception of applications is **March 31st 2026**.
